

RETURN CRITERIA FOR THE REGENERATION INSERT

EGR VALVE

1. The goods returned for regeneration must be supplied in the packaging of the new product that have replaced the part to be regenerated in the vehicle.
2. The EGR valve returned for regeneration corresponds to the product purchased in its place.
3. The returned valve must be complete, not disassembled and contain all components present in a newly purchased product.
4. The valve must not have any mechanical damage.
5. The securing components (casings, caps, protective shells) must be fitted in the same way as in the newly purchased part.
