

RETURN CRITERIA FOR THE REGENERATION INSERT

AIR-CONDITIONER COMPRESSOR

1. The goods returned for regeneration must be supplied in the packaging of the new product that have replaced the part to be regenerated in the vehicle.
2. The compressor returned for regeneration must be identical to that removed from the vehicle in relation to dimensions and electrical parameters.
3. The returned product must be in the same condition as when it was removed from the vehicle - it cannot be disassembled.
4. The compressor with a mechanically damaged clutch or body will not be accepted.
5. The product must have pressure holes secured/plugged.
6. If the clutch disc cannot be rotated in both directions, the regeneration insert will not be accepted.
