

RETURN CRITERIA FOR THE REGENERATION INSERT

STEERING GEAR

1. The goods returned for regeneration must be supplied in the packaging of the new product that have replaced the part to be regenerated in the vehicle.
2. The gear returned for regeneration corresponds to the product purchased in its place.
3. The returned goods must be a genuine OE product - please note the manufacturer's logo stamped on. The copies of cores with no marks will not be accepted.
4. The returned gear must be complete, not disassembled and contain all components that are present in a newly purchased substitute (rubber covers, pressure pipes, steering rods - if supplied with the purchased goods).
5. There must be no mechanical damage, including: the toothed bar operates without locking, the fastening elements are not damaged, the steering rods have no damaged threads, etc.
6. The toothed bar must not be corroded.
